

NEWS IN BRIEF

For Walvoil a year-end of awards

BAQ2021, Kubota Green Award and JCB Suppliers Award conferred to Walvoil for its commitment to social responsibility and innovation

For Walvoil it's no doubt a beautiful closing of the year.

After the recognition received from Confindustria, the BAQ2021, the label for Quality of School-Job alternation experiences, Walvoil has also been awarded by Kubota and JCB.

At the JCB India Suppliers Conference held on 15th December 2021, Walvoil has been awarded for quick and comprehensive development of New Products and subsequent rapid ramp-up of production, in the New Product Introduction Programme category.

Over the past few years, in fact, Walvoil has developed many new products for JCB, for various extremely challenging applications. JCB is one of the world's three largest manufacturers of construction equipment.

On the occasion of the Kubota Supplier day on November 18th, Walvoil has been awarded the KUBOTA GREEN AWARD, the prestigious award established by the company a few years ago with the aim of recognizing and rewarding the virtuous behavior of its suppliers in terms of environmental sustainability.

Born 130 years ago, and active in the world of agriculture, earthmoving, engines and green maintenance, the Kubota Group is committed to supporting the harmonious development of our planet and mankind - with products that contribute to abundant food production, good quality water supply and restoration of water resources - as well as the creation of a comfortable living environment through its high-quality products, technologies and services.

Walvoil has gained the 2021 recognition thanks to several projects aimed at transforming its activities and locations in a sustainable way. Specific projects which are the result of a global vision caring for the present and the future of the people working in the group and of our planet.

Three recognitions that award the Walvoil Group for its constant commitment and investment in innovation and corporate social responsibility.

Walvoil

Part of the Interpump Grup, Walvoil is among the main manufacturers of integrated products, electronics and complete mechatronics systems and keeps on projecting the future of motion in close touch with its customers and its partners from different sectors and markets. Present in Italy with seven production sites and a Test Department representing the heart of all R&D activities, Walvoil can count on eight branches in four continents and on a capillary sales network, which allows us to be close to the main reference markets worldwide.
